Dedication

Mr. Richard Collins

Mr. Collins:

To the camera shy man behind the camera, we need your picture in the yearbook more than once.

You who have dedicated infinite hours to our pictorial history putting up with the camera hungry who wanted to be in EVERY picture and ferreting out those who disappeared as soon as they heard the click of the shutter. You have worked with the enthusiastic and the difficult yearbook staffs and made them all feel important, have kept your sense of humor through endless innovative class photos, and have chased down the faculty members who NEVER like their pictures.

All twenty three classes you have carried through the creation of a yearbook are in your debt and this class of 2000 would like to thank you for the priceless record of our memories by dedicating this yearbook to you.

Thank you
The class of 2000

To the class of 2000
Depending on how you look at it, you are either the last class of the old century or the first one of the new one. In either case, you will be remembered as a fun-loving, enthusiastic group who left a mark with the teachers and administrators who had the good fortune to work with you. Whether you plan on going to college, the military, or into the job market, I hope you bring this energy with you. I hope your friendships last along with your memories of Essex and I wish each and every one of you good fortune as you move into the next phase of your life.

Sincerely,
